

# Insurance Research Center Report

2017 - 2018

# **Insurance Research Center**

# **History**

With the aim of organizing insurance studies and developing a fine infrastructure for the growth of insurance industry, the first insurance research office was established in 1997 by Bimeh Markazi. At the end of February 2000, the General Assembly of Bimeh Markazi authorized the foundation of the Insurance Research Center (IRC). On May 18, 2004, the establishment of IRC was officially conceded by the Higher Education Development Council of The Ministry of Science and Technology and initially three research groups were developed in the following areas: Property and Liability Insurance, Personal Insurance, and General Studies in Insurance.

In 2006, two new groups were added to IRC research body namely the Cyber Insurance research group and Islamic Studies of Insurance research groups. Since then, IRC has had five research groups.

# Mission

- 1. To identify the research requirements of the insurance industry;
- 2. To undertake fundamental, applied, and developmental research projects for the growth of the insurance industry;
- 3. To provide necessary facilities appropriate for insurance research activities;
- 4. To promote collaboration with foreign and domestic universities and academic institutes;
- 5. To provide consultation services to anyone interested based on the latest research

# findings;

- 6. To publish academic journals, books, training booklets, and software required for professional training;
- 7. To organize academic conferences and to present research findings.

# **Deputy of Research**

The deputy of research is responsible for leading, coordinating and supervising all the studies being carried out at IRC. Under the Deputy of Research supervision, since 2009, multiple large-scale research projects have been accomplished. In 2017-2018, 7 thesis/dissertation projects have been sponsored by IRC, 15 research projects have been completed and 32 research projects is yet to be accomplished.
